OBJECTIVE

Highly motivated and results-oriented Angular developer around **3 years** of experience building user-friendly interfaces and web applications. Skilled in **full-stack development** using **MEAN** and **MERN** stacks. Eager to leverage expertise in Angular, React, and Node.js to contribute to challenging projects in a fast-paced environment.

EDUCATION

Bachelors of Engineering in mechanical, Visvesvaraya Technological University, Belagavi 2018-2021.

SKILLS

Front-end development: HTML, CSS, JavaScript, Typescript, Angular, React.js

Back-end development: Nodejs, Express, mongoose, Authentication

Database: Mongo dB, PL/SQL

Soft Skills: problem-solving, analytical thinking, technical aptitude, adaptability, communication and teamwork.

Others: Git, NPM, chrome developer tools

EXPERIENCE

Front-end Developer Feb 2022 - Present
Tata Consultancy Services Bengaluru, India.

Responsibilities:

- Developed and optimized a telecom operations platform like **monitoring, configuration, fault management, ticket management etc.**
- Built responsive, **reusable** Angular components, reducing code **duplication by 50%**.
- Enhanced performance with **Web Workers** and **virtual scrolling** for large datasets.
- Played a key role in upgrading the project to Angular 17, leveraging **lazy loading** and reusable components to improve project structure and **performance**.
- Utilized **Angular**, Typescript, HTML, CSS, JavaScript, and **Plotly.js** for charts and **map** functionalities.
- Employed **agile** methodologies (Scrum, Jile) for effective project management and iterative development.

PROJECTS

Chat Application: Developed Real-time chat app with **one-on-one messaging, group chat** functionality, **media sharing** (photos, videos, documents), and **planned audio/video** call features (**Angular, Express, Socket.io, PL/SQL**)

Musify App: Music streaming platform with **login, search, music playback, playlist creation (private & public), collaboration** features (**React, Tailwind CSS, Recoil, Node.js, Express, MongoDB**)

Electric Vehicle Landing Page: E-commerce landing page with interactive UI and **Razor pay payment gateway** integration (**React, Tailwind CSS**)

Chess Game: Developed **two-player** chess game with **turn indicators** and **possible move suggestions** (HTML, CSS, JavaScript)

EXTRA-CURRICULAR ACTIVITIES

- **Mentorship:** Provided technical guidance to junior team members and mentored new hires, fostering a positive and supportive learning environment.
- **Full-Stack Development Course:** Successfully completed a comprehensive full-stack development course, demonstrating a strong foundation in web development technologies and best practices.
